are doing good work in spite
of difficulties.

I think you will find these
difficulties grow less & possibly
things will be easier when you
go to Bathrock.

Certainly you can take the
examinations: it is not necessary
inadvisable for the parents to
take it.

Dear Miss Macfarlane.

Thank you for
your letter.

Miss Maxon has
replied to you her
love say that
we still have
a very high opinion
of you and
believe that
in another post
you will be
successful.

13P2pneu4
In the meantime
your first duty
is to get well
strong again, as
evidently you
have not yet
recovered from
the sad strain
of last year.
Of course Miss
Marion leaves
the matter about
the time of
your going up

13P3pneu4
the work at Rumour
entirely to you &
Mrs. Bennett to
settle between you.
She is sure you
will act for the
best.
Only let us know
what you decide
to do & where you
will be for the
Easter holiday.
If you decide
to leave soon, it
will be certainly
best for you to

rest for a term. ^{изражене}

My dear "Baini"

Thank you for your

letter. Yes, I know sympathize
with your difficulty & I should
have tried to arrange for you
to leave at once but that it ~~was~~

would be seriously against
 your getting another post as
 have only a one tennis record behind
 you.

And now, dear, you must take
 all your courage in both
 hands go back to a foot tennis
 work. I need not remind you
 of how much attached you
 'year' was to you nor how
 much affection ~~with~~ we

all have for last year's Monitor
now, indeed, how we found it
quite easy & interesting to talk
to her! Do not think of all or
how much there is to be done or
expected of you too soon
quickly with the "next Monitor",
talk over things frankly with
Mrs. Perrett, if difficulties
occur, ask for her help.

Tell her also, as occasion may
offer, that we think a great
deal of children's individual
development, that they should
have leisure & space to grow,
that the teacher should keep
herself in the background to
remember
this end but also, that we
believe in authority, this
teacher must ~~not~~ use
(though she may not lawfully

use influence).

The children's interest in their
work will largely depend upon
your own interest in it, not
as compelling theirs but as
enjoying with them the
knowledge for which they
have a natural craving.
The children, too, should
play amongst themselves

but a question as to how the
game is going (or perhaps an
occasional game with them)

interests" which helps life

like to know of movements there
for an from time to time.

Of course it is much better
that under the circumstances
you should not go to Portugal.

I know of the people, that they are
really nice that you been well
enough it could have been a
pleasant change for you.

If you have any letters in press

Thankful to you.

My dear "Bain"

I much prefer

to know just how matters

stand & am glad to

be able to make

another arrangement

for you: you must not sit
up because it has often
happened that a student
who did not do well
in one part has brought

great credit to the College
in another part.

I shall recommend you
again with pleasure
because I know you have
it in you to ~~not~~ do

My dear "Bairn"

Your nice long letter

interested me greatly. I am
often in our thoughts.

I like the idea of your writing
reviews & perhaps may get some
work on the Glasgow Herald
that would be very good indeed.

Let me hear from you, dear,

57p2pneu4
From time to time and always
want to know how you go on &
be sure to tell me if there is
any way at all in which I can
help you.

You will like to know that the
new Sheldons appear to be of the
right stamp - that sort of N.O.S.
stamp we all require don't
we?

The House is full & all is
going pleasantly.

Miss Kitching & Miss William
would if they were here

My dear "Barium"

What a nice letter you have sent
me about your 'Saints' & what dear boys
they are. Christopher seems so by his
photograph needs care. He should not
have too much stimulating reading. He
has or so a story he has in school is necessary

18p2pneu4

for his health as well as for his progress. but
reading should not be his amusement out of
school hours.

I hope Mr. Gould may be able to stay
with Mr. Dix until James & then we may
be able to send some one else. but I think Miss
Williams should know soon. Do get the 3 pamphlets
from Miss Parick for Mr. Dix. He may be
able to understand our work to the school, & I am
sure that will give him pleasure -

My dear Miss Macfarlane,
Your kind letter
has been forwarded
to me from
Saskatoon. Now, please
to accept many
thanks for all
the appreciation
you express of
my work at
the House of
Education.
I feel honored
that I do not

deserve your ^{appreciation}
kind words
for if I succeeded
at all the credit
is due to dear
Miss Mason;
I simply tried
to follow her

directions in
all that I did.
To leave dear
Miss Mason was
indeed a sore
trial; we have
known each
other for more

than 40 years ^{appreciation}
I am here every
thing in my
professional life
still the college
had to be thought
of & I am now
too old for the
work & so we
decided to part.
I am very thank-
ful that you
found your
College Training
of use & that you
will be very

happy in ^{29 p 4 p m u 4} your
work.

With love &
all good wishes
